Vision

For years, helping countries in need has been driven by a model based on "charity aid assistance" - giving handouts to the needy. But this kind of aid creates a dependency that cripples people. NEW COVENANT MISSIONS [NCM] brings a new and invigorating model to missions: helping people to become self-sufficient

Strategy

NCM's strategy is to implement the principles of a "business as missions" organization. It focuses on partnering with people in developing nations to instill sustainable business practices while meeting the core needs of individuals and their communities.

To enable the people of Ethiopia to be self-sufficient in all areas of their lives, NCF has created seven unique "Initiatives":

- * Church Planting, Health Care, Education and Personal Assistance Initiatives all help foster "Community Development".
- * The Finance, Innovation, and Marketing initiatives all help promote "Economic Development"

Mission

The mission of the New Covenant Missions is to:

- * Proclaim the gospel of Jesus Christ
- * Break the bonds of dependency on foreign aid by empowering individuals and communities to be self-sufficient

•Create a mutual partnership with people that enable long-term sustainability of their economy, their environment, and their community.

Primary Focus

1) Church Planting: The focus of New Covenant Foundation is to reach people for Jesus Christ. The Church Planting Initiative supports local church planters. Instead of bringing in foreign missionaries, NCM believes that the most effective way to spread Christ's love is to enable people in their own country to minister to their own people.

2) Community Health Education: The focus is on the "preventative" not "curative" process. This is accomplished by providing basic health information and training throughout rural communities in southern Ethiopia. The training covers topics such as water purification, sanitation, agriculture, nutrition, maternal care and childcare, home care, prevention of disease including HIV/AIDS. They have shared this information in nearly 500 communities to over 900,000 people. Preliminary results show an estimated 50% reduction in the infant mortality rate and malnutrition rate.
